

Education

Izmir Institute of Technology

Computer Engineering , B.S , GPA: 3.17/4.0

Relevant Coursework: Information Management , Data Structures & Algorithms, Object-Oriented Programming

Izmir, Türkiye

September 2023 – June 2028

Bucharest University of Economic Studies (ASE)

Economics Informatics , Erasmus+ , GPA: 8.3/10

Relevant Coursework: Oracle DBMS, Inferential Statistics, Web Programming, Software Packages

Bucharest, Romania

February 2026 – July 2026

Experience

Mindioo Inc.

Software QA Intern

Prague, Czechia(Remote)

July 2026 - Present

- Wrote risk-based regression/UI test suites (Selenium) and API validation tests (Postman).
- Reviewed PRs (TypeScript, Supabase PostgreSQL) to catch logic errors and edge cases early.
- Flagged CI/CD pipeline failures and integration issues during PR reviews to reduce release risk.
- Debugged frontend/backend issues using Network tabs, API payloads, and Console logs.
- Tracked and managed cross platform bugs via Notion and Slack using detailed acceptance criteria and log captures, ensuring rapid resolution across Agile sprints.

inekle.com

Software QA & Web Tester

Istanbul, Türkiye(Remote)

October 2025 – May 2026

- Ran manual and functional web testing across browsers/devices for platform stability.
- Reported UI/UX and functional bugs in Jira with structured steps-to-reproduce.
- Built test plans and led pre-release/regression testing on critical updates.
- Collaborated directly with software engineers in an Agile workflow to clarify acceptance criteria, debug platform issues, and accelerate overall feature release cycles.

Projects

Task API Validation Framework | *Node.js, Express.js, Python, PyTest, GitHub Actions (CI)*

- Designed a contract-first REST API with a formal written specification (API_CONTRACT.md) defining expected endpoint behavior, status codes, and response shapes.
- Built an independent Python/PyTest test suite validating the API against the written contract, integrated with GitHub Actions CI to run the full suite on every push.

HEAI: AI-Powered Healthcare Platform | *Django, JavaScript, Pandas, Hugging Face (GPT/Whisper)*

- Built a full-stack healthcare platform that detects likely conditions from patient-reported symptoms using Hugging Face NLP models, and generates AI-based medical guidance.
- Built a pipeline that converts uploaded lab-result PDFs into structured tables (PyMuPDF + Pandas) and automatically flags out-of-range values.
- Added a voice-based patient-doctor consultation feature using Whisper for transcription and an LLM for generating consultation summaries and recommendations.

E-Commerce Data Analytics & Expansion Strategy | *Python, SAS, scikit-learn, Streamlit, GeoPandas*

- Built an end-to-end analytics platform combining Python (ML, geospatial analysis) and SAS (enterprise reporting) to support Trendyol's Eastern European market expansion decisions.
- Trained a logistic regression model to predict order returns (93.93% accuracy) and an OLS regression model to quantify how discount rate, order quantity, and logistics distance affect revenue ($R^2=0.358$).
- Used the findings to identify Bucharest as the priority logistics hub and flag discount rate as a key margin risk ($p<0.001$).

Leadership & Activities

IYTE Software Society

Social Responsibility Lead

- Led STEM community projects, including mentoring kids for LEGO competitions.
- Managed volunteers across task delegation and internal communication.

Izmir, Türkiye

October 2024 - Present

Skills

Programming & Core: Java (JavaFX, OOP), Python (Pandas, NumPy, Scikit-learn, Statsmodels), TypeScript, JavaScript, SQL (MySQL, Oracle, PostgreSQL, Supabase), SAS (Base / STAT / GRAPH), PL/SQL

Systems & Architecture: Linux environment, RESTful APIs, Network Protocols (HTTP/HTTPS, JSON), Relational Database Design & Normalization

Testing & Tools: Postman, Selenium, Git/GitHub, Jira, Streamlit, Browser DevTools (Network & Console Analysis), CI/CD Monitoring, Risk Based Test Design, Agile/Scrum

GitHub: [GitHub Account](#)

Language: English- C1, Turkish-C2, German-A2, Romanian-A1
